- Briefcase dimensions: Maximum 18 × 14 × 8 inches
- Handbag dimensions: Maximum 22 × 15 × 8 inches
- Garment bag thickness: Maximum 8 inches when folded

4. Travelling with Infants

Passengers are permitted to bring one carry-cot or one fully collapsible stroller into the cabin if there is room.

If there is no space for these items in the cabin, they will have to be checked.

For more information, visit Travelling with infants.

5. Boarding from India

For customers boarding in India, one piece of carry-on baggage is allowed.

Metric version

The size of the carry-on baggage may not exceed 115 cm in total dimensions (length + width + height).

Imperial version

The size of the carry-on baggage may not exceed 45.3 inches in total dimensions (length + width + height).

This rule applies to Economy and Premium Economy passengers only. Customers travelling in First Class or Business Class are excluded from this restriction.

6. Travel from Brazil

For all flights departing from Brazil, customers can carry up to the following amount of cabin baggage:

- Metric version: 10 kg
- Imperial version: 22 lb

7. Duty-Free Purchases

Duty-free purchases such as liquor, cigarettes, and perfume are permitted in reasonable quantities for all service classes.

However, liquid restrictions in effect at many airports may prevent these items from getting past security screening points.

For more information, visit More about liquid restrictions.

8. Cabin Baggage Placement

All cabin baggage must fit either:

- Under the seat in front of the passenger, or
- In one of the overhead lockers.

Baggage may not be placed behind passengers' legs, in the aisles, or in front of emergency exits.

9. Transporting Personal Items

If passengers bring liquids, powders, or medicines on board, these items must be packaged in compliance with international regulations.

9.1 Liquids Containers — Metric

- Maximum container capacity: 100 ml
- All liquids, gels, aerosols, pastes, lotions, creams, drinks, and other items of similar consistency must be in containers with a capacity no greater than 100 ml.
- Containers larger than 100 ml will not be accepted, even if they are only partially filled.
- Containers must be placed in a transparent, resealable plastic bag with a maximum capacity of one litre.

- Larger bags and non-sealable bags, such as fold-over sandwich bags, are not allowed.
- Containers must fit comfortably within the plastic bag, which must be completely closed.
- The plastic bag must be presented for visual examination at the security screening point.
- Only one bag per customer is permitted.

9.2 Liquids Containers — Imperial

- Maximum container capacity: 3.4 US fluid ounces (fl oz)
- All liquids, gels, aerosols, pastes, lotions, creams, drinks, and other items of similar consistency must be in containers with a capacity no greater than 3.4 fl oz.
- The supplied Imperial text states that containers larger than 100 ml will not be accepted, even if they are only partially filled.
- Containers must be placed in a transparent, resealable plastic bag with a maximum capacity of 33.8 fl oz.
- Larger bags and non-sealable bags, such as fold-over sandwich bags, are not allowed.
- Containers must fit comfortably within the plastic bag, which must be completely closed.
- The plastic bag must be presented for visual examination at the security screening point.
- Only one bag per customer is permitted.

10. Baby Food and Special Dietary Restrictions

Exemptions will be made for:

- Medications
- Baby milk or foods
- Special dietary requirements

Passengers will need to show an appropriate means of verifying the nature of these items.

For more information, visit the FAQ on hand baggage rules and liquids.

11. Medication

Personal medication cannot be placed in galley chillers.

Passengers should pack any medicine requiring temperature-controlled storage in a medically approved insulated container or pouch.

Cabin crew can provide ice on request to keep the container chilled throughout the flight.

12. Transporting Powders

On flights to, from, or through the US, and flights from or through Australia and New Zealand, powders in containers equal to or greater than 350 ml are not allowed in carry-on belongings or cabin baggage.

The rules provided are:

1. Powders in containers equal to or greater than 350 ml have to be checked in.
2. Depending on the last point of departure, powders in containers over 350 ml in carry-on baggage will be confiscated at:
    - Dubai International (DXB)
    - Milan–Malpensa Airport (MXP)
    - Athens International Airport (ATH)
3. Powders in containers under 350 ml may be subject to additional screening.
4. Baby formula, prescription medicines, and human remains are exempt.
5. Powder-like substances purchased in airport duty-free shops must be placed in Sealed Tamper Evident Bags, along with proof of purchase (receipt).

These rules are stated to be in accordance with security guidelines from:

- The US Transportation Security Administration (TSA)
- The Australian Government's Department of Home Affairs
- The Civil Aviation Authority of New Zealand
