1. Overview

Find out how to purchase additional baggage allowance for your flight if you want to take more with you.

2. How to Buy Extra Baggage Allowance

Your standard baggage allowance depends on:

- Route
- Class of travel
- Fare type
- Emirates Skywards membership tier

You can buy extra baggage allowance online for less than you would pay at the airport. You can also use a combination of Cash+Miles to reduce the amount of cash you need to pay for excess baggage.

In most cases, you can also pay for extra baggage allowance at the check-in desk in the local currency or through your local Emirates office at current exchange rates.

Eligibility

- Extra baggage allowance can be purchased on adult and child tickets, but not on infant tickets.
- Tickets must be issued by Emirates; Emirates ticket numbers start with 176.
- Flights must be both operated and marketed by Emirates.

For more information, read the Excess Baggage Terms and Conditions.

3. Save When You Buy Extra Baggage Before Check-In

Emirates offers special discounts when you purchase additional baggage allowance online or through its retail or contact centres.

To purchase online:

1. Log in to Manage your booking using your booking reference number.
2. Check the applicable fees.
3. Pay by credit card in the same currency used to purchase your ticket.

You can purchase extra baggage allowance up to four hours before your flight.

4. Buying Allowance at the Airport or Through Emirates Offices

You may need to allow extra time at the airport if you expect your baggage to exceed your standard allowance.

Some airports may not accept cash or debit card payments for ancillary services. Customers should be prepared to pay using a credit card.

5. Adding Additional Weight — Weight Concept

If your ticket's baggage allowance is based on weight, known as the Weight Concept, you can purchase additional kilograms (kg).

Under the weight concept:

- You can check in as many bags as you like, provided the total weight does not exceed the maximum allowance for your travel class.
- Each individual bag must weigh less than 32 kg.
- The total dimensions (length + width + height) of each individual bag should not exceed 203 cm (79.92 inches).
- Items exceeding 203 cm (79.92 inches) cannot be transported as checked baggage and must be sent as cargo or freight.

5.1 Buying Additional Weight Before Check-In

You can save up to 45% on airport check-in baggage fees by purchasing baggage allowance in advance.

Conditions:

- Discounts are available online or at retail and contact centres.
- Purchases must be made up to four hours before departure.
- Additional baggage can be purchased in blocks of 5 kg.
- The maximum additional weight available for purchase is 50 kg.

Example: For travel from London to India, the supplied information states that you would receive a 35% discount on the fee for an extra 5 kg and a 45% discount for an extra 20 kg.

2. Emirates' Excess Baggage Terms and Conditions apply.

3. The Montreal Convention 1999 or the Warsaw Convention 1929, as amended, will apply to your extra baggage as though it had been carried on the same flight.
4. Under these conventions, your baggage will only be considered delayed if it does not arrive within five days after your flight.

Exception: This rule does not apply to flights to and from the United States.
