5.3 Source and Retrieval Notes

- **Source URLs:** Retain the individual official links included in each relevant section.
- **Retrieval date:** Record the date on which each source page is accessed or refreshed.
- **Source attribution:** Treat the information as content from the supplied Emirates pages, not as independently verified current policy.
- **Deduplication:** The Visa and Passport Requirements section appeared twice in the original input. It has been included once, with all unique points retained.
- **Chunking:** Store each major topic as a separate chunk. Keep ESTA and TSA PreCheck separate from Dubai Connect, and keep Dubai Connect booking deadlines together so the contradiction is not lost.
- **Freshness handling:** Mark visa rules, TSA fees and eligibility, processing times, Dubai Connect booking deadlines, terminal information and airport facilities as potentially time-sensitive.
- **Conflict handling:** Preserve the 12-hour and 24-hour Dubai Connect booking statements as a source conflict. Do not silently select one.
- **Answering rule:** For questions about current travel eligibility, direct passengers to the appropriate official authority or current Emirates terms instead of presenting time-sensitive source details as guaranteed current facts.
